Gentlemen:

I have on hand four U.S.Quarters (25 cent coin). One is dated 1853 with arrows on each side of date. The other is dated 1853 without errows. The others are dated 1859. Please advise me if these coins have any special value with your Society.

You have been recommended to me by the director of the U.S.Mint Washington, D.C.

Sincerely yours,

H H Lukken

Dear Sir:

In reply to your favour of May 1st, your quarter of 1853 with arrows as well as the one of 1859 have no premium. The piece without arrows may possibly be worth several dollars, but no one can tell the value without seeing the piece. If you care to send the one to us which has no arrows, we should be glad to examine it and make you an offer.

Very truly yours,

Curator
